8 SEP 1978

MEMORANDUM FOR: Director of Central Intelligence

VIA: Deputy Director for Administration

FROM: Robert W. Gambino

Director of Security

SUBJECT: Classified Material Checks by Federal Protective Officers

1. Action Requested: None; for your information only.

2. Background: This Office is prepared to inaugurate a 24-hour exit check by Federal Protective Officers (FPOs) of all personnel exiting Agency buildings who are carrying briefcases, parcels, handbags, or any other container in which classified material could be transported.

In the course of planning for these checks we have had discussions with various Agency components and have adopted many of the procedural refinements which they have suggested. Throughout these discussions we have stressed the fact that, while optimal control of classified material is our primary objective, we must not inhibit the efficiency of the day-to-day operations of this Agency.

Under the proposed procedures the only exceptions to FPO inspection will be individuals who are officially documented as Agency couriers; selected individuals who are designated by the head of each component and who are documented as Agency Document Control Officers; individuals who can provide the FPO with a serial numbered, one-time pass signed by an appropriate Document Control Officer; official liaison officers from other government agencies who display a distinctively marked badge; NFIB representatives; and Intelligence Community members attending conferences at the Community Headquarters Building whose clearances have been formally certified.

OS 8 2482

The FPO supervisors have been briefed and given written instructions. Appropriate GSA officials have been informed of the program and have given it their unqualified support.

The Office of General Counsel has reviewed our proposed procedures and have raised no legal barriers to putting them into effect other than stipulating that a notice be placed at each entrance telling everyone who enters that they will be subject to a check upon exiting. These notices have been prepared and are currently in place at each entrance.

Initially, we plan to have a relatively heavy involvement of Security personnel in support of the FPOs who will act as on-the-spot problem solvers.

3. Staff Position: It is readily apparent that these procedures will not be 100% effective. They will, however, introduce a much needed extra increment of discipline into our document control procedures.

We are prepared to implement the 24-hour FPO check on 11 September 1978 or such other date as you may deem appropriate.

STATINTL

Robert W. Gambino
